Personal Statement:

I am an aspiring Full Stack Developer who loves building real projects while learning new technologies. I have worked with tools like NestJS, TypeScript, Next.js, and PostgreSQL, and have some hands-on experience with real-time features, user authentication, face verification, and text extraction using APIs like Google Vision and Face++. I am always looking to improve my skills, write cleaner code, and build useful, user-friendly web applications.

Education Qualification:

➢ **Bachelor of Science in Computer Science and Engineering**
American International University Bangladesh (AIUB)
January 2022 – Present | CGPA: 3.89

➢ **Higher Secondary Certificate**
Cantonment College Jashore
June 2017 – May 2020 | GPA: 5.00
